

Turbokompresora marķēšana Sealing of the turcompressor

Pielikums Nr. 7

Restruktoram jābut izgatavotam no viendabīga materiāla un to jāparedz caururbt tikai montāžai un plombešanai, kas jāveic starp montešanas skrūvēm, starp restriktoru (vai restriktora/kompresora korpusa stiprinājumiem), kompresora korpusu (vai korpusa/atloka stiprinājumu) un turbīnas korpusu (vai korpusa/atloka stiprinājumu) skatīt zīmējumu.

The restrictor must be made from a single material and may be pierced solely for the purpose of mounting and sealing, which must be carried out between the mounting screws, between the restrictor (or the restrictor / compressor housing attachment), the compressor housing (or the housing /flange attachment) and the turbine housing (or the housing/flange attachment) see drawing.
