## I. “RALLY ŽEMAITIJA 2018” PRESENTATION

We invite all motor sport enthusiasts 15-16 of June to traditional rally festival in Kelme town, which this year is special, because it's five years since the first “Žemaitija rally in 2014”. So, the jubilee fifth "Rally Žemaitija 2018" is waiting for you. The rally format, as compared with 2017, remained unchanged. On the first day sportsmen must arrive to t to Administrative Checking and Scrutineering, then they will need perform reconnaissance and who want to test their cars in the “Shakedown” before the rally will be able to do it in the evening near Kražiai. Like last year, the park of rally cars will be complemented by the participants of the Lithuanian Rally Championship (LARSC) and historic cars (Historic). As every year, we expect guests from neighboring foreign countries, so it is expected about 70 crews on the start podium.

Rally HQ as the last year will be located in Kelme culture center. Service park will be located in the traditional place - Vytauto Didžiojo street, in the city center. During the rally LARC and "Rally Žemaitija 2018" participants will have to beat 10 special stages, Historic cars - 7, and LARSC participating crews – 6. Surface of all stages – gravel. The greatest rally changes this year are prepared for spectators. There are three convenient spectators areas in the each rally section this year, and the crews will pass twice through each of them. In this way you will have the opportunity to see even six special stages within a day, and the price of a rally passport is only 7 €.

### Friday, 15/06/2018

Early morning from 8:00 till 10:00 all rally participants must arrive to the Rally HQ to Administrative Checking. Immediately after its will begin reconnaissance with rally route, which will last till 18:30. This year Scrutineering will take place in a new place, in a car wash located J.Smilgevičiaus str.18, Kelmė, from 14:00 till 20:00 hrs. From 18:00 will start 3,35 km lenght Test Stage ("Shakedown"), which will be carried out in the well-known road section for sportsmen from the previous "Rally Žemaitija". Start place surface - asphalt, Service park will be in the center of Kražiai, near the start place. Action here will continue till 20:30. After a short space, 20:45 will begin the first meeting of Stewards in the Rally HQ, after which the first rally day will be completed.

### Saturday, 16/06/2017

#### Section 1

On Saturday morning at 8:00 rally will start. Getting to the track begins from LARSC crews and historic cars, and almost an hour later the start podium overpassed LARC participants and other "Rally Žemaitija 2018" crews. The first section of the rally will consist of three different 5 - 10 km long stages. LARSC and “Historic” class participants will drive only two stages, and LARC crews will have to repeat the extended first stage.

The first of these stages is an identical version of one last year "Rally Žemaitija" stage with excellent springboard, situated beside the spectator's area. Because here last year has been such a large rally fans interest, so we recommend all spectators here to begin rally monitoring. By the way, after that, from here it is very convenient arrival to the next spectators zone, which is provided in SS 4/6 . Starting place surface – gravel, but the length of the stage will be different – the first stage will be shorter, the version is exactly 7 km, and the second time, the crews will reach the finish just after 10.9 km.

Although the second of these stages is well known to sportsmen, it will be a kind of novelty, as this year it will have to be overcome in the opposite direction. Starting place surface – asphalt, length - 4,6 km.

After the first rally section in Kelme participants will have opportunity for cars washing and 30 minutes service time. Here will be carried out regroup with change of start positions, according to finished SS results.

#### Section 2

The second rally section will begin 12:00. As well as the morning the first will start LARSC participants, following – "Historic" class, and 12:50 to the route will move LARC crews. In this section will be three, only longer special stages.

SS 4/6 is a combination of several traditional "Rally Žemaitija" special stages with some reverse and completely new sections. The LARC and Historic crews will have to beat this section twice, and LARSC crews will go only once. Starting place surface – asphalt, at the same place, where was SS 2, the length of the stage – 13.5 km. In the middle of this stage is provided the well-known from the previous years spectators zone, which is special, because from this point it will be possible to see each crew twice in the same speed stage. After that, we recommend you to go to the last spectators area on SS 7/9.

SS 5 is a combination of two stages, that were used in the previous years with reversing second section of the stage. Start place surface – gravel, length – 11,7 km. This will be a really fun stage for the rally participants, but since all crews will ride here only once, there are no provided spectator zones in this stretch.

After the second section, all participants will return to Kelmė again, where will wash up again, will have 30 minutes service time and one more regroup with change of start positions, after which, according to the "RALLY 2" rule, the crews which managed to handle their cars will be able to return to the race after retirement.

### Section 3

Third rally section consists of four 12 -13 km length special stages. LARC participants will drive these special stages twice, and all others crews will drive only once.

The first of their stages is well-known for racers, but and here they will also must to drive in the opposite direction than was usual in previous years, and in addition a new starting location is choiced, which will be on the gravel surface. Length of this stage is 12.5 km. In the middle of this stage is provided a well-known from previous years spectator's area, and the separate arrival road, so you can arrive and depart in comfortable time.

A similar, but non-identical version of the final 11.9 km stage's, for which the crews will get additional points, took place five years ago during the rally "Saulė 777", so for many it will be a novelty. By the way, this year, like many other tracks, it will be going in reverse direction. After 8th stage LARSC and "Historic" class participants will come to Kelmė and here 18:20 will finish the rally. LARC and other "Rally Žemaitija 2018" crews will appear on the finish podium about 20:00 hrs. Immediately after will be carried out scrutineering of some cars.

Awards will begin at 21:00 Kelme close to the Kelme Culture Center. At first will be awarded LARSC and "History" crews, and after less than an hour, on the scene we will see all LARC prize winners.
