# 1 INTRODUCTION

## 1.1 WELCOME NOTE

Welcome to *Rally Liepāja* – and as it turned out, in summer! When planning the 2020 event, we tried to keep it challenging for the competitors. The rally will again encompass a large geographical area, with the route reaching from Talsi all the way to Liepāja, going through the “golden fund” of rally stages in the Kurzeme region, and giving competitors a unique driving experience, while instantly providing the spectators with an unforgettable spectacle.

To keep things fresh, we have added a few new things this year. One of the two most significant additions is the return of city special stages, taking place in both Talsi and Liepāja, while the other is the ever-increasing *FIA Action for Environment* involvement in the event. In order to protect the environment, we will need your assistance, involvement, and courtesy – for example, by recycling and using resources wisely, as we can only save the environment by working together.

We expect that the race week will begin with extensive testing by the teams – for convenience, we will have thought about official tests, as well as making it possible to organize closed, private tests.

*Rally Liepāja* rally centre will return to the cosy *Liepāja Olympic Center*, which is just a few minutes' walk away from the service area (Annas market) and the start podium (next to the *LOC Manēža*), which will host the opening and closing ceremonies. Rally centre will first open on Wednesday evening, when the administrative checks will begin, along with the handing out of route documentation.

Reconnaissance of the *Rally Liepāja* special stages, covering a bit more than 200 competitive kilometres (with a total liaison distance of around 750 km), will begin on Thursday and conclude on Friday. While the crews will be away on recce, the technical scrutineering will take place on Friday morning. On Friday afternoon, the qualifying stage will take place near Liepāja, while the ceremonial opening of *Rally Liepāja* is set for that evening, along with official speeches, start position selection, press conference, as well as the ceremonial start.

*Rally Liepāja* Saturday's stages will take place in the Talsi region, with the crews moving to the Liepāja region for Sunday. Both days of the event will conclude with the city special stage, which each crew will tackle twice. In all, four city special stages, with the final two taking place on Sunday evening in Liepāja and determining the winners of the whole event. Once the racing is over, there are just a few more things to look forward to on Sunday evening – prize giving ceremony, press conference for the top drivers, and last but not least, the rally after party.

Enjoy Talsi, Liepāja, and Latvia!

**Raimonds Strokšs, Rally Liepāja director**

## 1.2 ENVIRONMENTAL POLICY

Even though creating a safe and environmentally friendly event has always been a priority of ours, the global trends shows the ever-increasing importance of the issue. And so, environmental consciousness plays a growing role in the preparation and running of *Rally Liepāja* as well.

Reduce, reuse, recycle – these are the three pillars on which we evaluate our progress towards sustainable growth. We invite you to think about your daily life and routine – most probably, you can also find ways to make your life a bit less resource dependent!

As one of the ways we have reduced the use of resources this year is by stepping away from the printing Rally Guides and Supplementary regulations. Though these documents are an integral part of rally, we have seen that competitors mostly read them on their electronic devices.

During the rally, we will encourage spectators to think about the environment – for example, by picking up after themselves, and respecting the property of others. Everyone will be asked to recycle, wherever it will be possible to arrange for this.

We have mentioned just a few examples, but that is not all. With that in mind, we are hopeful for your understanding and involvement in making sure that *Rally Liepāja* becomes a catalyst for demonstrating how it is possible to compete in an environmentally friendly way.

## RALLY LIEPĀJA ENVIRONMENTAL PROTECTION POLICY

**RA EVENTS – organiser of Rally Liepāja** – has been organising sports competitions for more than 10 years, always trying to conduct them in high quality and acting like role model for others.

Keeping up with global challenges and the **FIA Environment Program**, the organiser of **Rally Liepāja** plans to start working on **Rally Liepāja Environmental Protection programme in 2020**, reaching out to rally spectators, competitors, media, staff, partners and suppliers.

**The aim of the Rally Liepāja Environmental Protection Program is to reduce the negative impact on the environment** what will be done by inviting all involved parties to work in long-term, by making responsible decisions and acting sustainably.

To achieve this, Rally Liepāja plans to work with all parties involved in the rally in order to achieve results in the following areas:

1. Optimize transport and travel costs and planning;
2. Preserve nature, respect the property of others and do not leave waste behind;
3. Sort waste at designated points;
4. Reduce the amount of printed materials;
5. Reduce pollution from rally technique used;
6. Reduce resource and energy consumption in service park and rally center;
7. Asking all parties involved to consider their options for reducing environmental impact.

Rally Liepāja invites you to think about environmental issues not only during the rally, but also on everyday life habits, as we all have the opportunity to reduce the ecological footprint left. The organisers of Rally Liepāja are convinced that by making the right choices everyday, we are extending the future and sustainability of our planet.

TALSU  
NOVADS

# Kultūras mantojums – vērtības šodienai!

**Tiņģeres muiža** valdzina ar izkoptu parku un noslēpumainu Mīlestības saliņu. Ik gadu tā aicina uz īpašu pils balli, tā aizgājušo laiku greznumu ienesot mūsdienās.

**Villa Hochheim** jeb baronu fon Firksu pilsētas māja ir pārtapusi Talsu novada muzejā. Te mijiedarbojas mūsdienu mākslas un vēsturiskās vērtības, bet pavisam blakus ar dabas enerģiju spēlējas Tiguļu kalns un dendroloģiskais parks.

**Spāres muižā** “slīcina” kliņģerus un ciemos gaida labā raganiņa. Ir labi izvējot balsi turpat esošajā estrādē un “uzsūkt” muižas parka īpašās noskaņas.

**Dižstendes muižas** Bruņinieku pils ir viena no mazākajām pilīm Latvijā. Tā pievilina ar romantisku noskaņu, ļaujot vaļu iztēlei par šeit bijušo un notikušo. Un kur nu vēl apakšzemes eju valdzinājums!

**Nurmuiža** ik gadu pārsteidz ar jaunu “atdzimšanu”. Te pārsteidz ne tikai iekopts garšaugu dārzs un oranžērija, bet arī izcilas kvalitātes restorāns.

**Strazdes muiža** ir rūķu apsēsta, turklāt ne tikai Ziemassvētkos. Ja vēlies “sagaršot” īstu brīnumu, uz Lapzemi nav jābrauc, ir jābrauc uz Strazdes muižu.

**Lielvirbu muiža** ļauj piedzīvot vēsturiskā mantojuma greznumu mūsdienu izpildījumā. Tā apliecina: par muižkungiem var kļūt ikviens!

**Firkspedvāles muiža** ir kā “rozīnīte” Pedvāles mākslas parkam. Te mijas dabas šarms, izcils radošums un pagātnē radīto vērtību saglabāšana.

## 22 FESTIVAL OF SPEED – KURZEME

Let's go to Kurzeme!

When hearing that phrase, some Latvians will think that you are going on vacation in the western region of Latvia, but for motorsports fans, the word *Kurzeme* has been synonymous with one of the most famous motorsports events in the Baltics and beyond for more than 50 years.

Festival of Speed first took place in 2010, with the goal of bringing multiple motorsports disciplines to Liepāja – in these years, in addition to the top-level rally event, Liepāja has hosted drag racing, *SuperMoto*, *Lada RX*, rally supersprint for regular cars, *StreetBike Freestyle*, as well as speedboat competitions held on Liepaja Trade Channel, and historic *Youngtimer* regularity rally on the same special stages as for rally. A multitude of competitions, which have been watched by many local and international motorsports legends, as well as Latvia's senior government officials.

And this year will not be an exception, having Festival of Speed another successful year – with activities being help to be made public in due time.
